Foreword

ANOTHER school year ends. Another class passes through Central's portals out into the far-flung reaches of life. Another BLACK AND GOLD appears to chronicle briefly the school history of the class, and to serve as a perpetual reminder of that history.

The class of June, 1935, has the unique distinction of having begun its existence in Central High, and not in either Technical High or Commercial High. Thus is initiated the long series of graduates who will have known only Central as their senior high school.

May all good fortune and happiness attend this class of June, 1935,—and may this good fortune and happiness be prophetic of what is to befall the many classes that are to follow through the years to come.

Meet our one and only "Ronnie." With her roguish smile, this pretty, blue-eyed colleen has charmed her way into the hearts of all who know her. "Ronnie" will enter the business world after graduation, and we know that she will succeed in her chosen career. Best of luck, pal.

ALBERT J. ABRAMS

"Al," "Moose"

Down the corridor comes "Al," the boy with the merry eyes. He came to us from Hope. While here with us he has made as many friends as anyone could hope for. Without him class functions would not have succeeded. Now that he is leaving us we all wish him the best of luck in anything he may undertake.

MARION ALICE AHARONIAN

"Rony"

Look who's here! None other than "Rony," the fun-loving girl of the Senior Class. Her witty remarks and good sportsmanship have won her many friends during her three-year stay with us. We wish you success in all of your future undertakings. Well, best of luck, "Rony"! *À Bientôt.*

Gliding along the dance floor or walking languidly down the corridor, "Margie" personifies the poise and finesse of the modern generation. "Margie's" ambition is to become a designer of women's clothing, and judging from her excellent taste, we all know she will succeed. The class wishes you the best of luck, "Margie."

Home Room Representative, 9B-9A-10B-11B-11A.

WARREN ALLEN

Here we take time out to introduce the boy who is always willing to lend a hand in studies. This is none other than our Warren. You would always see him interested in his studies and the first to leave the room when the bell rings. Warren hopes to enter the New England Conservatory of Music. Good luck, Warren!

DORIS C. ANDERSON

"Dot," "Andy"

Petite—enthusiastic—spontaneous—"Dot" Anderson is one of Central's favored lasses. A peppy little cheer-leader, a convincing Senior Play star, an ardent club member, "Dot" has entered into almost every Central activity as a chosen leader. This bundle of energy will carve an envied niche in any field of attainment she may aspire to.

"Andy" may be seen any morning, during the second period, working industriously in the stock room with "Normie." Although undecided as to the immediate future, he plans to enter the business world later. May good fortune be with you, "Andy."

S. A. O. Bookkeeper, '34-'35.

MARY ANDERSON

"Andy"

A loyal friend, a conscientious student, and a gay companion, describes our Mary. Whenever one comes across a difficult problem, Mary is always ready to help. After graduation she expects to make some dark office of our business world bright with her cheery smile. May success be with you in the future.

FRANCES E. ANDREWS

"Frankie"

"Frankie," our loyal friend and gay companion, came to us from Boston two years ago. Her ready smile spreads sunshine wherever she goes, and has brought her a host of friends during her short stay at Central. After graduation, she intends to enter the business world, and may success be always hers.

He rises to the occasion in any emergency, and fills us all with renewed confidence. This happy-go-lucky fellow hails from North Providence. His ready smile and genial ways have won him a host of friends. As yet he is undecided about furthering his education, but we have every reason to believe that he will make good in whatever he does. Farewell!

ANDREW J. ARGENIO

"Andy"

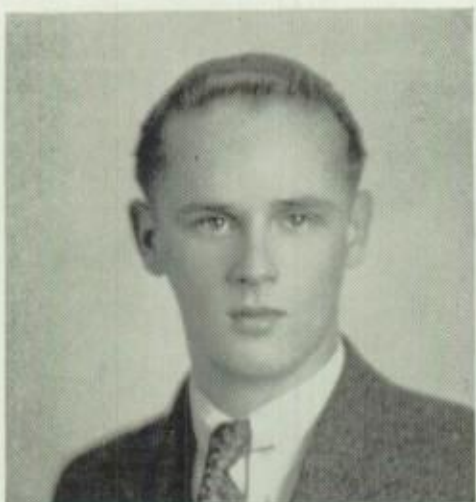

Well, look who's here. It is none other than "Andy," one of the happy-go-lucky boys of our class. His witty remarks have often broken the calmness of a peaceful classroom. His good nature and pleasing personality have won for him a host of friends at Central. Many a "hankie" will moisten at our "Andy's" departure. He will further his education at the Rhode Island College of Pharmacy.

EVELYN JOAN ARLEQUEEUW

Big blue eyes, curly hair, cheerful smile, and beautiful clothes. Who is she? "Lyn." Her teachers know her to be studious and dependable and her friends know her to be a good sport! "Lyn" will soon be seen as a private secretary to some business executive. "Good Geluk!"

Home Room Banker, '32; Basketball, '33; Student Chamber of Commerce, '34-'35.

RICHARD EDWARD ARMSTRONG

"Dick"

Here is "Dick," the fellow who is always seen doing his homework during the Home Room period. He is a quiet lad, but has made many friends at Central. "Dick" likes outdoor sports and intends to be a veterinarian after leaving here. Best of luck, "Dick," for we know that you'll succeed.

STELLA M. ASADORIAN

Pleasing, cheerful and helpful, are only a few words which describe Stella. Her radiant smile has won for her hosts of friends. "Stell," who is an accomplished pianist, intends to further her education at some higher institute of music. We all join in wishing her success and happiness.

Hockey, '34; Tennis, '34.

CLIFFORD R. AUST

"Cliff," "Butch"

Here he comes, folks, six feet two of friendship and good cheer. We who know "Cliff" know him as a super-salesman and we all know that he will be a success in the business world. His plans point toward a bright and rosy future, and all Central join in bidding him *"Auf Wiedersehen."*

FREDERICK KENNETH AUST

"Ken"

"Still waters run deep." This is certainly true of our "Ken." Although he has been very persevering in his studies, his quiet manner has made him well-liked by all his fellow students. After graduation "Ken" intends to take up forestry work for Uncle Sam. Here's wishing you good luck, and we sure will miss you.

JOHN AYVASIAN

"Johnnie," "Red Light"

A major league baseball team will probably be his destiny, while in his ability may vest the destiny of the same team. Central will miss John not only as a fine personality and leader in social circles but also as one of its best athletes. Good luck, "Johnnie."

Baseball, '33-'34-'35; Captain, '34-'35; Hockey, '35.

Her good sportsmanship and efficiency
Are some of her good traits of character
That we're sure will bring happiness to her.

LAURA A. BAIRD

"Jackie"

Vivacious yet quiet is our "Jackie," though to her friends she is a sports-loving pal. Her pleasing personality has won her a great many friends during her stay at Central. Our loss will be the business world's gain, as this is what "Jackie" intends to do after graduation. Best of luck, "Jackie."

Tennis, '33.

EDWARD BALKUN

"Eddie," "Ed"

Now, although it isn't necessary, we introduce "Eddie," a true and excellent friend. "Vin," "Doc," "Vinty"

Quiet (?), fun-loving, studious is our "Vin" who is always ready to lend a helping hand. "Doc" has made an enviable academic record at Central and hopes to continue his studies at R. I. State. Rest assured, dear reader, that "Vinny" will reach the top of the ladder of success. *Auf Wiedersehen*, Vincent, may happiness be yours.

RAYMOND L. BALLOU

"Ray"

"Ray" is one of the most carefree yet most intelligent fellows who has ever passed through Central's doors. His amiable personality and his good work in this school show him to be outstanding. "Ray" plans to go to West Point. Success and good luck, "Ray"!

ANNA TERESA BALUCH

"Such a charming disposition . . . she can win anyone over!" is what is often said of Anna. Possessing so affectionate and kindhearted a nature, Anna attracts many true friends. With so many desirable characteristics, we are sure Anna will reach success in the business world.

GORDON BANNISTER

Courtesy, a good nature and a pleasing personality describe our Gordon. Although he is never seen carrying a book he is one of Central's clever fellows. Gordon is undecided about his future, but whatever he undertakes we all know that he will succeed. Good luck, Pal.

D. ELIZABETH BARDEN

"Betty"

Introducing one of the best loved girls of the graduating class. "Betty" not only excels in her studies but also in sports. On first appearance she seems very sedate, but we who know her realize that she is just the opposite. R.I.C.E. will claim our "Betty" next September. Good luck and *au revoir*.

MARJORIE J. BARKER

"Margie"

This charming young lady is the one and only "Margie"—the brunette with the sparkling brown eyes and the spontaneous smile. Her artistic ability has won her commendable praise. Truly, she is the female Michael Angelo. In her two years at Central she has gained many friends who are confident of her success.

EDGAR ALBERT BARNES

"Ed"

"Ed" came to us from Greene a few years ago. His pleasing personality and good fellowship have gained many friends for him. Because of outside activities "Ed" could not participate in any sport. "Ed" intends to further his education at R. I. State, and we all know that he will succeed in whatever he undertakes. Good luck, Pal.

RALPH BARNEY

A poet might put it in verse, a singer might put it in a song, however, the whole class regards Ralph as a sincere student, true friend, and a "regular fellow." His originality makes him a wonderful link in any chain of friendship. Your many friends bid "farewell to an outstanding member of the class."

NANCY BARROWS

"Nan"

This charming young lady needs no introduction, but to acquaint her with those who haven't had the pleasure of meeting her, she is our fun-loving "Nan," the true friend and pal to all who know her. LORIS BASS

"Twerp"

The word "quiet" has been used and used in personals, but here at last is the case where it fits the individual perfectly. We have seen so-called "quiet people," who were not always so quiet, but seldom have we seen "Twerp" when he was otherwise. For two years he has glided among us in a quiet manner, committing himself only by a shy, amused smile when he is among his friends.

GEORGE O. BEAL

"Beal"

We are proud to have George in our class. Quiet and industrious, George has acquired the respect of all whom he has met, and we feel sure he will succeed in whatever he undertakes. We sincerely congratulate him, and wish him the best of luck.

ANNA BEAUCHEMIN

The combination of cheerfulness, friendliness, and good humor never fails to make a jolly person. Such a person is Anna. She has wholeheartedly supported school athletics, and she is ever ready to lend a helping hand. May she succeed in her chosen field, bookkeeping. Our "Best Wishes!" go with you, Anna.

AROXIE BEDRASIAN

"Roxie"

Our "Roxie" with her friendly smile
Is a pal who is worth your while;
She'll be a loss to her many friends
When her stay at Central ends.
As an artist she'll reach great fame
And acquire for herself a well-earned name;
Although we know that she'll reach success,
We wish her joy and happiness.

DOROTHY BEIGHTON

A little smile,
A tender phrase,
A word of kindness,
A little praise:
"Dot" has these on the tip of her tongue
And gives them out to old and young.
Love and riches, luck and success,
Will all bring "Dotty" happiness.

THOMAS BELLIOTTI

"Tommy"

Here we have one of Central's outstanding track men. His dynamic personality has brightened many a dull moment for his classmates. We all will miss "Tommy" when he leaves — and the track team will have to look long and hard before it finds a star like our "Tom."

MICHAEL BENEDETTI

"Bene"

"Bene's" cheerful disposition and good fellowship have won him many friends during his stay at Central. He is an ardent lover of sports, but outside activities have prevented his participation in them. "Bene" is undecided as to his future. Good luck, "Bene."

PEARL DOROTHY BENNETT

"P. D. B."

Introducing Pearl, that tall girl of our class. Her comely face, her winsome broad smile—prithree, who can resist such attraction? What is that noise in the corridor? Just Pearl and a few of her friends, giggling. In conjunction with this, Pearl is always immaculately groomed. Good luck to you, Pearl.

PRISCILLA BENS

Here's to the best pal a girl ever had. One who will always hold a spot in the hearts of her true friends, of which she has many. Personality, charm, friendliness, and studiousness are a few of the characteristics Priscilla possesses. *Je vous soubait succès!*

Volleyball, '32; Budget Collector, '33; Thrift Council, '34-'35; Student Chamber of Commerce, '34-'35.

ALBERT B. BENTSEN

"Al," "Ben"

Behold the portrait of a young man whose quiet, unassuming nature has won him many friends during his stay in Central. Although "Al" appears shy on first acquaintance, he proves an excellent sport, a willing helper, and a good worker, after knowing him a while. "Al" claims math, machine shop, and mechanical drawing his favorite studies. He expects to enter the great field of drafting. Best of luck and success in the future, "Al."

IRVING BERREN

"Irv"

Walking aimlessly about the corridors of Central at any time of the day we are almost sure to see "Irv." He always manages "to be excused" as he puts it "by hook or crook." We do not mean to give any false impression of him, for he is a real member of the class. Central wouldn't be Central if "Irv" did not attend every dance or if the Recreation Room missed him between 12:30 and 1:00. So long, "Kid," and the best of luck.

JAMES W. BERRY

"Emperor," "Rajah"

It would be most difficult to mention "Jimmie's" perfections. Let it suffice to say his nickname, "Emperor's" diversions are many, but the one in which he excels is lunch. He does not confine himself to the serious things of life, but as the girls will tell you, "Jimmie" is quite a social hound. Though he leaves us now, he will not be forgotten for he brought the Centrals on the cinder track. Lotsa luck, "Rajah."

Indoor Track, '31-'35; Outdoor Track, '35.

CATHERINE MARY BESSE

"Kate," "Kay"

Here is one of the best natured girls we know. Her heart is made of gold, and all her clouds have silver linings. Catherine has a tendency towards writing poems. Who knows, some day we may be reading a widely-published poem written by our friend. Catherine said she would like to be a nurse, and we hope that her wish will come true. The best of luck to you, always, Catherine.

Thrift Council, '31-'32; Centralite Representative, '34.

RAYMOND B. BESSETTE

"Specks"

A quiet unassuming chap with just the right proportion of humor, and one who has never yet been caught with his homework undone . . . that's "Ray." He believes stoutly that silence is golden, but his speech is solid silver. We know that he will be successful at Harvard Mechanical Dental School where he intends to complete his education.

DONALD ALBERT BISHOP

"Don," "Bish"

Introducing at this opportune time, our pal and classmate, "Don." "Don" has a smile and a cheery word for everyone he meets, and has been a prominent figure in a great many clubs. He has made an enviable record during his stay at Central, but claims "Chem" is his favorite study. In the fall "Bish" intends to enter Brown, where we are sure he will continue his climb on the ladder of success in the scientific world. Here's luck to you, Pal.

Baseball, '33; Tennis, '33-'34; Centralite, '34; Home Room Representative, '34.

JOHN J. BOLEMAN

John has been known in certain circles as a great fun-maker, and he has proved himself worthy of the title, for he always has a witty word to cheer everyone. John's interest in Aviation rates him as one of Central's air-minded. Besides his ability to distinguish every plane that flies, he has a keen sense of design. John intends to further his education at the Boeing School of Aeronautics. Happy landings, "Bones."

LENA BONANI

"Dynamite," "Dyna"

Everyone knows "Dyna," and everyone is her pal. A real friend is she with her pleasing personality. We will not forget to mention that she is a "dandy" athlete, too. A lover of all sports, especially football. At games "Dyna" is the first one there, and we often wonder why. May your dreams come true and success be yours, "Dynamite."

Baseball, '34-'35; Field Hockey, '35; Cageball, '35; Basketball, '35; Tennis Instruction, '33-'34; Tennis Tournament, '34.

JEANNETTE MARY BOURDON

A sunny smile . . . a sunny disposition. That's our Jeannette. Whether those big brown eyes are twinkling with laughter or that curly head bent in study Jeannette is always a shining example of a true "Centralite." Jeannette is uncertain as to her future, but with such a pleasing personality how can she fail to sail through the Harbor of Success.

French Club, '34-'35; Home Room Representative, '35.

JOHN BOVI

To write a personal for John—and do it well—is indeed a task. Although John has been with us but a year, he has gained a host of friends through his likable personality. John's name can be found on any sport page. Why? Because John is a clever amateur roller polo player. Good luck, John.

HENRY V. BOYLAN

"Red"

Here he is folks, "Red," hailing from Elmwood. He is a jolly, good fellow, who has won a place in the hearts of all of us with his pleasing personality, his sunny disposition, and his wonderful ability at making and keeping friends. Ready to lend a hand to anyone, he has endeared himself to everyone. At athletic games, he is always present lending his encouragement to the "Black and Gold" warriors. In his studies he has managed to keep up to the necessary mark. We hope he has enjoyed his stay at Central. We hope, too, that in his life's work he may enjoy the same good fortune as has been his share during the past four years.

RUTH MARGUERITE BOYLE

"Parlez-vous francais?"—Ruth does. But going from the incidental to the important, Ruth is an example of a genial and easy-going nature. As a friend she is on a par with the nonpareil. When she leaves Central she will leave a feeling of comradeship engraven in the hearts of her classmates. Ruth will continue her eager pursuit of elusive wisdom at Katharine Gibbs. She takes with her the best wishes of the class.

French Club, '34-'35; Secretary, '35.

WALTER V. BOYLE, JR.

"Walt"

And now, gentle reader, let us pause for a moment to study this noble countenance. Walter's talents are varied, but he excels as drum major. "Walt" could be seen leading the school band at the games and school dances. Upon leaving Central, Walter intends to further his education at R. I. State. *"Bonne chance, cher ami."*

Band, '32-'33-'34-'35; All Providence High School Band, '33-'34-'35; Drum Major, '33-'34-'35.

LOIS BESSIE BRIERLEY

"Lo"

Here we have none other than our own good-natured "Lo." Dependability and initiative are two of her outstanding qualities. "Lo's" favorite subjects are Art and Home Economics. During her high school career, she has gained many friends. We know that she will be successful in her future life. Lots of luck, "Lo."

Hi-Tri, '33-'34; Basketball, '33-'34.

Personality and refinement are only two of the many qualities that characterize our Phyllis. Her friendly smile and cheerful manner have won her an everlasting place in the hearts of her classmates. She has our best wishes in anything she undertakes.

TESSIE RUTH BROCKMAN

"Birdie"

This petite, little, red-haired miss hails from Boston. During her year at Central, she has made many friends. Tessie is sweet and agreeable at all times, and for this reason alone, I am confident that she will succeed in most anything she undertakes. Loads of luck, Tessie.

Tennis, '34.

MILTON HAROLD BRONSTEIN

"Some are born great, some achieve greatness, and others have greatness thrust upon them." We are sure "Milt" will be one of those who will achieve greatness. Business will be his *métier*—but not the "monkey" kind. With his engaging personality and shrewd mind, the future will know him as "Milton Bronstein, Success."

MARJORIE HELEN BROOKE

"Brookie"

Hi folks! Here's "Brookie," one of Central's rare treasures. Her winning smile and attractive personality have won her a host of friends. Although "Marge" has not entered our school music clubs, she has exceptional musical ability. She is a master at the piano and also possesses a beautiful contralto voice. We feel she will go far in the music world. Good luck, and may success be yours.

Thrift Council.

CLARENCE E. BROWN, JR.

"Cy"

"Cy" has won many friends during his stay at Central through his cheerful smile and likable personality. He has given support to all the athletic teams as well as holding a high scholastic record. Central realizes that when "Cy" leaves her the loss will be long felt. "Cy's" future is still unknown, but we know that whatever he attempts will be a success. Good luck from us all, "Cy."

WILLIAM J. BROWNE

"Brownie," "Bill"

During the years which "Bill" has spent at Central he has been found one of the "liveliest" fellows in his class, as any of his associates will testify, and his path has been literally strewn with bright remarks. Incidentally—he does well in all of his studies although they do not seem to claim *too* much of his time. Methinks he would make an excellent lawyer and who knows but what some day "Bill" may be accepted to the bar. Here's to your success, "Bill"!

TINA BRUNI

To say that Tina is "pure gold" is no exaggeration. High ideals and splendid traits of character coupled with a fine sense of humor make her a person admired by all. Her friends treasure her friendship because of its sincerity and devotion. We wish her success in whatever vocation she may engage.

RALPH BUCCI

"Butch"

This quiet and sociable chap is none other than Ralph who treats his subjects with respect. His continual good natured attitude has won the friendship of all his schoolmates. He is undecided as to his future, but we are sure that whatever route he may take he will be successful. May the fates smile lightly upon you when you leave Central.

MARY FRANCES BULASKI

"Kitten"

A loyal friend, a gay companion, and a pleasing disposition describe Mary. Her business-like manner has been a great aid to the *Centralite*. Mary's determination for success has enabled her to be outstanding in all her studies. The best of luck to you!

Leaders, '32; Glee Club, '32-'33; Budget Collector, '35; Centralite Staff, '35.

EUGENE BUONACCORSI

"Gene"

"Dynamic action" describes "Gene"! A vivid imagination combined with keen business acumen make this young journalist promising material for a metropolitan daily. The hand that creates cartoons also packs a mean wallop reports the sports editors. "Gene" can be seen directing an energetic staff before the *Centralite* bulletin board. Whether it be *The New York Times*, *The Providence Journal* or *The Centralite*, your presence will be felt!

The Centralite Staff, '34-'35.

LENA C. BURBINE

"Lee"

Hi-Ho everybody! Hang on to your hats while we introduce "Lee," the little parcel with eyes of vivacious brown that just sparkle with pep and personality. "Lee" is very fond of dancing, and any sport with plenty of action. We hear "Lee's" outside interest, "Al," is going to give her a ring the night of the Prom. Congratulations and the best of luck, "Lee."

Junior Glee Club, '32; Senior Glee Club, '33-'34-'35.

CHARLES BURDETT

Here he is! Silence personified. Wherever you are and you don't hear a sound you can be sure he isn't there, but that doesn't mean a thing. He was a very good student and we are sorry to see him go.

Student Council; S. A. O. Bookkeeper.

NORMAN BURDETT

Here's another one of our former Technical students. He has not participated in sports, not because he does not like them, but because outside employment would not permit it. We are very sorry he is leaving us, but we wish him good luck and happiness.

CHARLES L. BURDON, JR.

"Charlie"

COME ON GANG! — A CENTRAL LOCOMOTIVE! — MAKE IT PLENTY LOUD! LET'S GO! ! — . That's "Charlie" Burdon out there leading the cheers that spurred our team on to victory. And he did a good job, too, as he directed the finances of the *Centralite*. A student, a friend, and a co-worker . . . You've guessed it; he's a true CENTRALITE. He will further his education in the field of aviation. Here's good luck to you, "Charlie"!

Art Club, '34-'35; Girls Field Hockey Team, '33.

VICTOR A. BYSTEDT

"Vic," "Al," "Lindy"

"Lindy," as he is called by everybody, is one of the most popular members of the class. Although he seemed rather a bashful young chap during his first two years at Central, we must admit that his junior and senior years have changed him in more ways than one. He does not claim to be a "shark" in any of his studies, but when it comes to dancing, we all know he is "right there with the goods." Although not a participant in athletics, "Lindy" has always ardently supported our games and class socials. Best of luck, "Lindy," in whatever career you decide to follow.

ALBERT CACCHIOTTI

"Al"

Here, friends, you gaze upon the noble countenance of our "Al" to whom we owe many thanks for breaking up many a monotonous class period. "Al" possesses a pleasing personality and a delightful sense of humor which has won him many loyal friends. Although "Al" is never burdened by many books, he is a proficient student. "Al" intends to take a physical instruction course in Arnold's College, New Haven.

RUTH MARGARET CAHIR

"Ruthie"

She's slender and snappy and not very tall with the loveliest disposition you could ask for. Of course, with all these charming qualities who could resist Ruth's personality? Her popularity is readily proven by her host of friends and admirers; both male and female. Wealth and happiness to you, Ruth.

S. A. O. Bookkeeper, '35.

HENRY CAMPATELLI

"Camp," "Campo"

Introducing "Camp," a carefree youth who is readily known for his willingness to engage in a good laugh. "Camp" is an accommodating fellow and although he does not use a "Boston Bag" to carry home his books, he passes in his subjects very easily. "Camp" was a loyal supporter to all athletics.

GOVANNA CAPOZZOLI

"Jennie"

Central is surely losing one of its brightest scholars, and one of the sweetest girls of the graduating class. A truer and more sincere friend than "Jennie" is quite difficult to find. Everyone knows "Jennie" by her remarkable, cute dimple in her chin. More words need not be said, for her Honor Society pin speaks for itself. *Arrivederci carissima amica.*

LOUIS CARBONE

"Lew"

Here's a lad who to outward appearances is a calm, stately person. Through his kindly disposition he has won many friends while at Central. However, there is a strain of seriousness and determination to make good. "Lew" claims that chemistry is his favorite study. He is undecided as to his future, but we are sure he will be successful in whatever he undertakes.

ANNA PURCELL CARDEN

"Anne," "Ace"

"There's a little way about her
That is very, very dear,
A way that always makes
Folks glad to have her near.
A smile that always welcomes her
A sigh when she departs,
And that little way about her
Has endeared her to our hearts."

This is the simplest way we can account for "Anne's" popularity. She is the life of the party and with a smile can dispel more gloom than a copy of *Life*. "Ace's" future will be a happy and useful one, for she is one of those people who are destined to succeed.

RAY CARDILLI

"Pep"

Presenting "Ray," the gloom chaser. He is full of pep and mischief. Where "Ray" is, fun is sure to reign. "Russ," "Frame"

Although we have known "Russ" only a year we feel safe in saying he is a friend in every sense of the word. "Frame" can often be seen discussing the problems of the day with one of his many friends. Next fall "Russ" expects to travel to R. I. State where we know he'll succeed. *Auf wiedersehen*, Russell.

CARMINO C. CARRAZZA

"Cal"

This is "Carl." He is really the personification of the Neapolitan gentleman. If courtesy and kindness could be measured in weight, you would find "Carl" a heavy man. "Carl" is already working on his road to success. May good luck and happiness follow him.

HELEN J. CARROLL

Everybody's pal! That is the best introduction to our "Irish." Her friendship is highly valued by all who possess it. Helen is one of Central's outstanding girl athletes. SALVATORE CINTOLO

Hold everything, folks. I would like to have you meet "Sammy" Cinto. "Sammy" came to Central two years ago from La Salle, and has lived up to the record that he had established there. Central is fortunate in having such a student. "Sammy" plans to enter the business world, and we are sure that he will succeed. Best of luck, "Sammy."

WILLIAM CLOOS

"Bill," "Willie"

Here we see William who, with his quiet manner and serious face, misleads one to think that he is studious; however, his friends know him as one inclined to sing and joke, especially in Bookkeeping. "Bill's" one ambition in life is to stay young, just to be a lad, as it were. Good luck to you, "Laddie"; may you achieve your ambition.

EUNICE R. COHEN

"Quinn," "Eunie"

Ginger, pep, personality—these are only a few of the adjectives that describe "Eunie." When she enters a group, immediately things begin to liven up. Eunice is one of our wittiest classmates, with a most contagious laugh. Her good-naturedness, cleverness, clothes, and good dancing are envied by all. Pembroke expects Eunice in the fall, but little do they know what a "barrel-of-fun" is on its way.

JESSICA J. GOLDMAN

Lend me your eyes, your ears, and what have you. All of these you must have to appreciate one of the most popular seniors. "Jet" is the type that every girl envies—personality, pep, brains. She has distinguished herself as a good student as well as a good dancer. "Jet" may be regarded as an ace in Central's great shuffle. With such personality we know she will accomplish much in the future.

RICHARD WARNER GOODBY

"Dick"

Our president is the rare type of person one meets but seldom. "Dick's" sincerity, willingness to oblige, and captivating personality make him a true and ideal friend and have won him a unique popularity with all his classmates and teachers. Although he has done excellent work on our football team, he has maintained a high scholastic standing. "Dick" plans to enter Brown University in the fall.

JEANETTE EVELYN GRAVES

Charming personality and exquisite characteristics are introduced by our Jeanette. She has won, through these qualities, many friends during her stay at Central. That ever-glowing smile creates fun and laughter wherever she goes. Future plans have not yet been made, but whatever they are, may they be successful.

DOROTHY THERESA GRECO

"Dot"

Diligence and ambition suit her to a "T."
Of her excellent standard we all agree.
Teaching is her ambition, we know she'll succeed.

Giggling and laughing suit her fine, for her
Radiant smile appears all the time. She
Excels as a pal and a friend, indeed, and never
Complains when something goes wrong.
Only success and happiness we wish you, your whole life long.

"The Kid"

Meet "The Kid," who during her stay at Central has made a carload of friends. Her good nature and willingness to help a friend has made her outstanding. If you are looking for her, look either in the halls or for a crowd of fellows for she will be in the midst of them. Helen hopes to further her education at Lesley in hopes of becoming a prim kindergarten teacher.

HILDIA C. GREENBERG

"Heenie"

"Heenie" is most vivacious and jolly, the "hail-fellow" type who has a dimply smile for everyone. Without any obvious hardship, "Heenie" seems able to acquire enviable marks in her studies, and just as easily attracts newcomers to her long list of friends. May success be yours, Hildia.

ANN GREENE

Brown eyes, brown hair, a winning smile and a pleasing personality describe our Ann. To have missed the friendship of Ann is to have been deprived of one of the rarest gifts that Central possesses. Her gayety and willingness to lend a helping hand have won her the esteem of all her classmates. May success be yours in the future.

Junior Chamber of Commerce, '35; Traffic Squad, '35; Senior Play Usher, '35.

GLADYS GREENE

"Laddie"

To be loved for your sweetness, your friendliness, and the good will you radiate is indeed an accomplishment. Gladys' success is due to these desirable characteristics making her the lovable person she is. Success is hers, we know.

HAZEL HADWIN GREENWOOD

A pair of sparkling blue eyes, exquisite clothes, a pleasing personality, and we have Hazel. Hazel's presence at socials makes her the cynosure of all eyes. With her charming manner and pleasant smile, we know she will succeed at Lesley where she intends to further her education.

OSCAR GRISSOM, JR.

"Dock"

Here we introduce Oscar. He may look quiet and dignified, but wait until you know him! He can always win a smile from any member of the fair sex. He has gone successfully through his four years with us and declares Biology to be his favorite subject. Oscar is undecided as to the future, but our best wishes go with him.

ROBERT LEWIS GUSTAFSON

"Bob," "Gussie"

"Bob" came from Roger Williams Junior High School with his pals, Frank and "Eddy." They can be seen together at almost any time chuckling over one of "Gussie's" bright (?) puns. "Bob" is a gentleman and a scholar and, as any of the fair sex can tell you, he certainly can dance. "Bob" intends to add to his abundant knowledge by attending R. I. S. C. Best of luck to a friend and pal.

THOMAS L. HACKETT

"Tom"

This serious-looking chap, who is anything but serious, is our own "Tom." During his stay at Central he has done very well in his studies and has also made a host of friends for himself. "Tom" claims his favorite subjects are Economics and Girls. His great ambition is that of becoming a journalist. Good-bye, "Tom," and may luck be with you on your journey to success.

MICHAEL HAKEEM

"Mike," one of the best students in Central, is widely known for his stick-to-it-iveness. No problem was ever too great a job for him. His ability and interest in debating is well known to many of us, and his tireless efforts to make the Debating Society outstanding will long be remembered. His scientific inclinations will lead him to R. I. S. C. in the fall. Best of luck, "Mike."

LAURA HALKO

Those of you who do not know Laura are missing the friendship of one of the most charming girls of our Senior Class. Laura is congeniality itself. Always cheery and smiling, she is liked by teachers as well as by classmates. Her charm will surely be felt in the business world as we of Central have felt it. Best wishes, Laura!

E. ROBERT HALLOCK

"Bob"

"Bob" has a habit of slipping into his seat just as the bell rings in the morning—or a few minutes later. He came to Central three years ago from Calef Junior High School and has been a loyal supporter ever since. He is often seen at football games cheering lustily for Central. Good luck for the future, "Bob"!

Glee Club, '32.

LEO J. HALPIN

Leo, "Old Faithful," this characterization fits. His game has been won in the field where plugging, faithfulness and persistency are essential for success. Leo has succeeded! School teaches many lessons—Leo has learned his, but none stands more in the vanguard than the one in which complete abandon and self-effacement are required, so indispensable in athletic prowess.

Track, '32-'33-'34-'35; Cross Country, '32-'33-'34-'35; State Champion Team, '33.

MARY E. J. HALPIN

Here she is, folks! None other than our Mary, the girl with the sparkling eyes and cheery smile, who is one of our most versatile friends. Because she is the possessor of an unusually pleasing personality, she has become a popular member of the '35 Class. Upon graduation she will be claimed by the business world. *Que vous pouviez renissir*, Mary!

Hi-Tri, 12B; Social Problems Club, 12A.

We wish you luck, "Dick"!

HARRIET ELIZABETH HAMEL

This attractive young miss is none other than the well-known Harriet. Her sincere manner has won for her a host of friends during her stay at Central. Harriet's charming personality is recognized by teachers and students. She does very well in all her studies, but claims her favorite subject is "type." Harriet intends to further her education at a business college. Her legion of friends wish her the best of luck, and we know she will succeed. Good luck, pal!

MARY HANLEY

"Mae"

"Mae" is the possessor of a sweet nature which finds its radiant climax in a pleasing personality. Wherever "Mae" enters, gloom vanishes, for her witty remarks and originality are known to all. Her genuine sweetness and everlasting charm have made her the most popular girl of our class. With her spontaneous, winning smile, she is sure to be a success in whatever she undertakes.

KENNETH HANSON

"Ken"

The June class of 1935 dedicates this space to one of its true Centralites. His admirable personality and sterling character are responsible for his host of friends, whom he is ever willing and ready to aid. A gentleman, a true sport, with a fine scholastic record, and a keen sense of humor, give him a firm foundation upon which to build his life's future.

EDWARD K. HARDING

"Ed"

They may say that good things come in small packages, but here is a time when they are wrong. Our "Ed" is a boy that breaks many a girl's heart. He has a smile for everyone. There will be a great loss to Central's Traffic Squad when "Ed" leaves us in June.

Traffic Squad, '34-'35; Glee Club, '33-'34-'35.

DOROTHY HARLIN

"Dotty"

Sweet, amiable, friendly, loyal—these are only a few of Dorothy's many admirable qualities. She excels in all her studies, and has also participated in sports. She has made for herself a place in the hearts of many, and her friendship is cherished by all. The hearty good wishes of the class are yours, "Dotty."

Hockey, '32; Volleyball, '32.

WILLIAM THOMAS HARRISON

"Bill"

William, better known as "Bill," is an interesting person. Studying doesn't seem to bother him at all. His favorite periods are lunch and Algebra. We can see the reason for the first, but why the second, "Bill"? He hasn't any definite plans for the future, but we know he will be successful in whatever he undertakes.

ALICE HARNEY

"Al"

With words we cannot describe our sorrow as we say good-bye to a true pal whom we will always hold high in our esteem. "Al" is one friend who cannot be easily forgotten. We don't wonder that she has made that certain "him" from E. G. A. very happy. May your path always be strewn with four leaf clovers.

HELEN G. HARWOOD

Behold our Helen! No introduction is needed for this charming blue-eyed lassie, for everyone wants to know her. When you hear a "Hi" in the corridor you will know it is Helen greeting one of her many friends. To all of us she has been a true friend. Good luck, Helen.

Tennis, '34; Track, '35; Hi-Y, '35.

SUSAN ELIZABETH HEALEY

"Sue"

A ringing laugh, a gay "Hi, there," and "Sue" comes walking down the corridor, surrounded by a group of friends. If the art of smiling, pleasantness of disposition and engaging personality were subjects at Central, "Sue" would surely be an Honor Student. With these winning qualities, "Sue" will succeed in whatever she undertakes.

HOWARD L. HEYWOOD

Howard is surely a successful student. His friendly, agreeable and polite nature has made him socially prominent. His sincerity and dependability have secured the co-operation of his teachers. Howard's perseverance, together with a normal supply of intelligence, made it possible for him to master his most difficult subjects. At 7:30 he may be seen any morning parking his "Hudson" after a ride from the town of Johnston. Best of luck, "Farmer."

IRENE HICKEY

Who is this Northampton lass coming down the corridor? Although she has only spent her senior year at Central, her ambitions and studies are very high. She is usually seen at our games and dances. May your future be as sunny as your smile.

EMILY HICKS

"Hickey"

Here is our generous Emily
Who will always remain in our memory.
Willing to help all her friends in need
This fine classmate we'll miss indeed.

"Millie" has outstanding music ability, and in the future intends to brighten the portals of the N. E. Conservatory of Music. We know you'll reach that "Isle of Success," Mildred.

Trinity College will claim "Anne" after graduation, where we know she will make as many friends as she has made during her short stay at Central.

WILMA HODGSON

"Billie"

It gives us great pleasure to introduce our "Billie," one of the most attractive and popular members of the Senior Class. Her charming personality and winning smile have made a host of friends of both sexes. "Billie" is never seen without her side-kick, "Viv." After graduation, "Billie" intends to further her education at Rhode Island School of Design. Let's all wish her the best of luck and success.

Home Room Representative, 11A, 12B; Social Committee, 11A, 12B; 12B Class Day Publicity Committee.

CATHERINE RITA HODNETT

One would not have to know Catherine very long to appreciate her innumerable fine qualities—for Catherine personifies the golden youth of today. Her natural, unaffected manner has made her a great favorite among her classmates and teachers. We are sure that she will be as much of an asset to R. I. State as she has been to Central, and it is with a sigh of regret that we say *adieu* to one of the sweetest girls in our class.

BARBARA LOUISE HOHLER

"Bobbie"

We liked her when she entered;
She stayed, we liked her more;
'Round her our int'rest centered;
She's still a favorite, for—
She's always prepared to support us;
She's poised and commands our respect;
She's natural, aims not for effect;
She's helpful, and time will allot us;
She's loyal so makes a good friend;
She's ours, and though time will soon part us,
We know that our friendship won't end.

LEONARD HOLLAND

"Duke," "Dutchy"

Take note! He enters—tall, strikingly impressive and distinguished—"Duke," the Commander. Appearance and personality, combined with keen discernment, are his in remarkable degree. Reserved, spontaneous, sparkling with wit and bubbling with enthusiasm, a student in every detail, respectful of authority and discipline, capable, friendly at all times, and foolish if fun is wanted, all fit our friend. To know him is to appreciate these qualities more completely.

Home Room Representative, '32; Traffic Squad, '34-'35.

MARGUERITE H. HOOPER

"Peg," "Peggy"

"Peg" is a girl whose spontaneous wit and humor make her welcome anywhere. Never backward, yet never bold, she is the good sport that one looks for in a friend and pal. "Peg" gives no study any preference, but takes each one as it comes. With her charm and personality we know she will succeed at R. I. State.

HERBERT EDWARD HOPKINS

"Herbie"

"Herbie" is a true friend. He is well known to Central for his ever-present good nature, polite manner and willingness to help a friend. THELMA JANET HOPKINS

"Hoppy," "Thel"

Sweetest of the sweet and a treat to meet is our "Hoppy"—with a dash of pep, a sprinkle of wit and a bit of wisdom. Popular? I'll say! Whenever fun is the question, "Thel" is the answer. "Allie" and "Hoppy" are a perfect interpretation of the song, "Side by Side." We are sure that whatever she undertakes, she will carve herself a name in the business world.

EMILIO IASIMONE

"Iasimoni"

Bang! A roar of laughter and a happy smile introduces to us none other than our friend Iasimone. This boy is one of the happy-go-lucky, and has brightened many a classroom during his stay at Central. Traffic Squad, '35; Centralite Representative, '34-'35; Leaders' Club, '35.

EMILY FRANCES IDE

"Milly," "Mil"

Looks are deceiving, aren't they? "Milly" looks to be one of the quietest members of our class, but in reality she is always found in the midst of fun. Her fun-loving nature has not injured her scholastic standing as she has managed to complete her course in three and a half years. May good luck and success follow in your path, "Milly."

GRACE INFANTOLINO

Quiet and studious is our "Gracie,"
Yet beautiful and charming,
What else does a girl wish to possess
To help her trod the road to success?

After graduation "Gracie" intends to enter the business world. May the ship of success land you safely on the island of happiness.

Happy, carefree, sad at times and often in a serious mood that would last the entire day. Merle is an apt student and intends to further her art work at the R. I. S. D. May the world always be as sunny as your smile, Merle.

And always appearing so neat,
Ready to go at the first call,
Becoming a nurse so small,
And along the road of fame,
Ready to bring honor to her name,
A dios, and good luck, "Bobbie."

J. GEORGE JAFFEE

Who's that pleasant looking chap walking jauntily down the corridors? That is "The Mr. George Jaffee"—just "Georgie" to his friends, which are quite numerous. And does he swing a couple of mean drum sticks! One of the greatest reasons for "Georgie's" popularity with the girls is—his very excellent dancing. "Kid George" will greet us next from the stage of a prominent theatre where he hopes to become a famous entertainer. Luck to you.

CARL F. JOHNSON

"Squarehead," "Professor"

Introducing in this corner, "Squarehead," the comedian of the class. We, his friends, think that he would make a good radio comedian because he has his classes in an uproar most of the time (to his teachers' dismay). The "professor" plays a melephone in the band and orchestra and enjoys English in which he gets good marks. Best wishes, Carl.

MICHAEL JOSEPH JOHNSON

"Mickey," "Mic"

Looking at a "saint"? Oh, no! Just one of Central's most popular seniors. During his stay at Central, "Mickey" has made many friends, among the many a certain "Dot" Garvin. "Mickey" hasn't made up his mind as to what he will do after graduation, but all we can say is that Central loses a true friend, but the world gains one. Good luck, "Mickey."

With perfect results, as you can see.

MICHAEL MATIUSZ, JR.

Were a movement started at Central to abolish homework, I think that "Mike" would be loudest in applause. For, you see, "Mike" has always eyed books with suspicion. The Gentle Art of Keeping Silent

By ALICE ELIZABETH SHEA

(Awarded Girls' Prize in Anthony Medal Contest)

MY writing on the lost and yet fascinating art of keeping silent seems ironic to a certain extent, in that I am, unfortunately, the possessor of more than the usual degree of loquacity allotted to a single person. So my colleagues say, and their being in my company almost constantly places them in an equitable position to judge me. Therefore, I, not being able to adequately cast judgment on myself, rely on their superior faculties and acknowledge my garrulity.

However, having resolved to guide the ornate chariot of my thoughts onto the peaceful highway of Silence, I shall endeavor to consider the habit of excessive contemplation as cultivated by the Hindus, incidentally, a very stoical people, as a race. Both the flowery roadsides of rural India and the crowded thoroughfares of the urban districts are dotted with diminutive altar-shacks in which weary wayfarers meditate on the beauties of nature, the infinity and perfection of the Deity, or the finiteness and defectiveness of man. Small children, incredibly small—are compelled to sit silently and meditate for periods of one-half hour or more. Such calmness, serenity; such absolute freedom from nervous complications; such development of the mental and spiritual greatness in a person are attained through meditation! Why can we not create some system of common public reflection? How

effectively it would dispel the perpetual mist of agitation which blurs our poor, tense, American lives! Many, many years would be needed to acquire that involuntary love of peace and quiet, solitude and prayer, that is inborn in some races. Theoretically, the habit of silence can be created, but practically,—doubtful.

Silence, she whose "visage is too bright to hit the sense of human sight," she whose gait is slow, whose eyes glow with the fervor in her sober mind, and whose cool dark weeds sweetly envelop those who cling to her for solace, is a foreign being, universally speaking, to us who work and worry in this new and chaotic country. She is neglected, abused by us. Her consoling arms are quite empty. Why can we not turn to her, feel her cool white fingers soothing our fretted brows, and hear her sweet low voice warding off those demons, Tautology, Garrulity? Think of the horrible catastrophes which can be averted by merely keeping silent, and yet, one simple question usually produces legions of useless and empty replies. As one very, very wise man said, "Silence is golden."

We should, then, take opportunities for concentration whenever possible. We should hold Silence sacred, ineffable,—revere her, love her. For as that very, very wise man said, and as I still maintain, "Silence is golden!"

The Outcome in Europe — Peace or War?

By THEO EDWARD TETREAULT

(Awarded Boys' Prize in Anthony Medal Contest)

THE eyes of the world are intensely focused on the political situation in Europe, for as usual Europe, like the proverbial kicking mule, is loaded with dynamite. The question which is of paramount importance in the minds of all who are the least bit interested in political and social problems is whether peace can be maintained in Europe, or whether we shall be again hurled into the maelstrom of another major conflagration.

The best approach to this all-important question is to review in brief the causes of past wars in Europe. For our purposes a logical point to start with is the Napoleonic Wars, for it is from that period that Europe assumed somewhat nearly the same geographical distribution of her peoples that we now know.

The Napoleonic Wars were primarily the result of the desire of an individual to secure, through military accomplishments, the absolute control and domination of the whole of Europe. How well this desire matured is well known to all of us. The physical make-up of Europe coincided well with Napoleon's scheme, for excepting the Pyrenees and the Alps, there is no great major division of land in entire Europe. The Partition of Poland illustrates this well, for the portions absorbed by Prussia, Russia and Austria were easily added to their present domains.

Following the Congress of Vienna in 1815, there was developed throughout Europe the theories of nationalism and imperialism. Particularly in Prussia did we see this nationalism being encouraged by an efficient military organization instituted by a family with well-known imperialistic tendencies. As a result of this nationalism there occurred the Franco-Prussian War,

which further inflamed the spirit of nationalism in the Teutonic countries of middle Europe. The spirit of nationalism spread from the Germanic countries to the Latin countries of Italy and Greece, and there again we come face to face with several wars which indisputably had nationalism as their prime mover.

This leads us up to the next great conflict—the World War. It must be remembered that during the years certain great changes had been taking place. Populations had increased tremendously and colonization had assumed a great importance. The modern sciences through their inventions had paved the way for intense commercial rivalry.

The desire for territorial acquisition was rampant because it was recognized that colonies provided the means of effectively solving the problem of over-population as well as establishing outlets for the commerce of the nations.

Germany was the nation which felt most the necessity for this expansion, and thus we find her precipitating the world into the chaos of a world war.

Looking back on these and other wars, we are able to sum up the causes of war. They are, primarily: Imperialism, nationalism, commercial rivalry, the desire for expansion, and racial hatred. Of those things we are certain, for we have learned them from the greatest of teachers—Experience. When the question—Peace or War?—arises, we have but to cast our eyes about for any or all of these primary causes of war.

As we do so today, we have ample cause for alarm, for these causes are flagrantly staring us in the face. In Germany and Italy, for instance, we have nationalism and im-

perialism in all its splendor. In Germany we have in the person of Adolph Hitler one who, without a doubt, aspires to the status of Emperor, and in like manner we may cast the same shadow of suspicion upon Mussolini. Also Russia's attempts to instill the spirit of nationalism is well known to all of us. No one can doubt too that commercial rivalry is greater than ever, especially in the field of munitions making, which is in itself an acknowledged fomenter of wars. Also the newspapers bring us accounts of new terrors perpetrated through race-hatred. And in addition to these causes the physical

make-up of Europe has not changed. No new natural boundaries have been created which might in some way curb these causes of war.

I wish that I could predict peace for Europe. But to my mind war is inevitable in Europe principally because there all the causes of war are in strong evidence. If the old adage—*Where there is smoke there is fire*—holds true, then we are sure of conflict in Europe; for imperialism, nationalism, desire for expansion, and racial hatred are the smoke emanating from the unholy fires of war.

A Perfect Day

By NANCY BARROWS

I STARTED out at 6:30 on a gray, foggy morning, with my home-made fishing pole, a can of wiggling, squirming worms, a book, and my lunch. As I walked along the country road, I meditated upon the fact that at about this time of a school morning, I would be dragging my weary self from a soft, comfortable bed, to get ready for "the old grind." How different I felt now, how full of vigor and eagerness! Why? Why is it that when we don't have to do a thing, we like to?

Through the mist I saw a tiny island nestled in the center of a lake. This island with its sandy shore and trees which looked too large for it was my destination, for on the opposite side of the island, there is a deep sparkling pool where black bass have a lovely time evading the fateful hook. Perhaps you wonder how I got to the island. I walked to a certain spot and stepped confidently out onto the lake, for at this spot the water covered a stone wall.

As I arrived at the pool, I was met by two lovely water moccasins which did not seem to realize that I wouldn't have missed them if they had stayed away. In the ensuing din I lost my lunch and book, which I fished out of the lake and placed on rocks to dry.

And now I began to fish, Mr. and Mrs. Snake having left me in peace, though a little apprehensive.

While waiting for a nibble, I watched the fog rise from the lake, and the sun come "smiling through" all warm and golden, glorifying the drab dullness of the day. I loved the sun, I decided, as I hauled a black bass from the lake; but several hours later, hot, and dirty, and hungry, and with my bass exceedingly lonesome, I changed my mind about loving the sun. I sought the shade of one of the large, leafy trees near the center of the island, but hastily retreated upon reflection that my host and hostess of the morning took their departure inland. So, I collected my lunch and book and decided to eat and read a while. Did I say a while? Later I compromised by fishing and reading at the same time, but the next time I looked up from my book, my pole was gone, hook, line, and sinker.

And so, after a dip in the lake, I wended my way homeward, my lone fish dangling precariously at the end of a stick, my book tucked under my arm. And as I went I sang loudly, if not harmoniously, "When You Come to the End of a Perfect Day."

A Modern Clippership Sails the Seas

By DONALD A. BISHOP

ON Wednesday, April 17, 1935, one of the epoch-making flights in the history of aviation took place. I am speaking of the flight of the Pan-American Airways Clippership, "Pioneer," from Alameda, California, to Hawaii.

This flight was important because it marked the first time a "pay load" had ever been flown across the Pacific Ocean. The plane carried a load of one hundred pounds of mail, composed of covers sent by Philatelists who wished to have a cover that was flown across the Pacific. For this privilege each collector paid one dollar. The money obtained in this way greatly helped to finance the flight.

Another factor in the importance of the flight is that it tends to lessen Hawaii's isolation, as the flight was made in slightly less than eighteen hours, whereas it takes a boat about five days to make the same trip. Thus with the new air-line in operation, a business man can leave California about dinnertime and arrive in Hawaii at noon the next day, transact his business and return to the States on the next plane, having made the trip in considerably less time than it would have taken him to go one way by boat. Then again, in case of a great catastrophe, help could be rushed to Hawaii in less than one day.

The "Pioneer," a huge Sikorsky Amphibian, powered by four 700 H.P. engines,

carried 3000 gallons of gasoline, and 300 gallons of oil, sufficient fuel for a flight of 3,200 miles. It carried a crew of six men, commanded by Captain Edwin C. Musick, a veteran air-mail pilot.

Included among the many modern instruments aboard the clipper ship, is a radio compass, developed by Colonel and Mrs. Lindbergh on their recent survey flight. The giant ship was constantly guided by the radio compass, negotiated the 2400 miles of open sea without a single incident worthy of note. It was also equipped with the latest type of short-wave sending and receiving set, which was used to keep the ship in constant touch with the shore stations.

The "Pioneer" carried a full supply of rations, including cans of tea and mixed veal which contain compartments holding water and lime. By puncturing one compartment, water is brought in contact with the lime, generating heat for the tea and veal. This is only one of the many unusual modern conveniences aboard the plane.

This flight was merely the first step in a proposed commercial air-line from California to Canton, China, via Midway, Wake and Guam Islands and Manila, in the Philippines. This will be a very daring undertaking, and we wish Captain Musick and his employers, the Pan-American Airways Company, the very best of luck.

On Symphony Concerts

By MILDRED K. HIEMER

FOR a thoroughly enjoyable evening, why not try a symphony concert? No, don't toss your head disdainfully. If the music is too much for you to sustain at one sitting, you can most certainly enjoy the audience. Indeed, for some people, the audience is half the fun, although they would not care to admit that shameful fact.

As you shall now discover, there are several distinct types of listeners, and each type attends the concert for a different reason.

There is, of course, the true music-lover. The fact that he is a devoted disciple of Bach, Beethoven, or any of the other great masters is easily distinguishable by the look of rapt pleasure on his face. He surrounds himself with an aura of concentration that is truly impenetrable. No trivial sound of dropping programs, squeaking seats or loud overtones from the woman behind him can tear away his attention. He is too far gone in the ecstasies of his own little Paradise. Sometimes he raises his eyes skyward that he may better catch that last dying echo of the violins; sometimes he rivets them on the conductor, and never misses a single, tiny movement; sometimes he closes them, for it is an established fact that one's attention is much keener when one's eyes are closed. In any event, he understands the music! We know that, because, at a particularly exquisite point, a little smile of recognition plays about his lips, and he nods appreciatively.

And now, since we are spectators, let us leave the true music-lover to his raptures and turn our attention elsewhere. There! That woman across the aisle! She is obviously bored. Her expression is testimony

enough for that. Instead of the entranced countenance of the music-lover, she wears an aspect that openly spells "ennui." She is, indeed, very indifferent about the matter of applause, being the last to realize that the symphony is over and the first to realize that clapping tires one easily. With a sigh of relief, she notes that the labors of the musicians are over, and engages in a little private rejoicing all by herself. We wonder why she has come.

Then there is the individual who delights in displaying for the benefit of the entire audience his or her new tuxedo or ermine wrap, whichever it might be. Frankly, I doubt whether "he" is particularly enraptured with this procedure. But "she" is like the little girl who parades before the full-length mirror preening herself and admiring the gratifying reflexion of swishing skirts, high heels, and mother's best wrap. It is really astonishing how many, many occasions these feminine peacocks contrive for trailing up and down the aisles during intermissions. From all this exhibition, we may conclude that this type of person attends concerts because "it is the thing to do." Indeed, what better reason could there possibly be? We know it, however, as just another indication of the "sheep follow their leader" idea. And we also know that if we were to intimate as much, these same "sheep" would bridle with wrath and indignation. But that is human nature, and human nature is too ticklish a thing to meddle with.

And so, with these criticisms of concertgoers, (I hope I have not been too severe with them) and these final observations on nature, we shall leave the symphony concert until another time.

Good Companions

By NANCY BARROWS

PERHAPS you have always thought of companions as people, but many of the best are not. These, I shall write about.

Have you ever read a book of poetry, feeling quite sure when you opened the book that you would not like it, and suddenly realized that it was dinner time and you had read the book through many times and really enjoyed it? Or perhaps it was a story you were reading, and you have let the soup burn or the fire go out. You don't mind the scolding you get, do you? You see, you and your companion, have been having a magnificent time.

Sometimes you may have lain on the grass besides a tiny bubbling brook, or in a field of long waving grass, just listening to the familiar sounds about you. Nature is always a good companion.

We must not leave out work, for though

everyone complains about it, we find it difficult to separate a man and his work once they really "get going."

One of our more modern companions is the radio. It is one of the best, for instead of seeking companionship for our moods, we turn the dial to suit our ever-changing emotions.

You see, I have left the best until last. A pet; do you ever experience such mutual comradeship as when you are romping over fields with your shaggy little dog excitedly dashing to and fro before you, or when, in a serious mood, you sit with your arm around his ruffled neck, your pet in perfect accord with you, always appreciating your mood?

No indeed, people are not the only companions, nor yet the most important. What would we do without a pet, a book, a radio, or the beautiful things of nature?

Athletics in School Spirit

By JOSEPH DIAMOND

YOU all know the story of the public speaker, who by the use of his palm as a main stem and his fingers as branches, illustrates to the future graduates of an institution the basis on which they now stand and the paths they will take in the future.

The same method could have been used when Technical and Commercial High Schools were combined into Central High School. To illustrate this situation we should bear in mind the picture of two streets, one coming from the left and the other from the right and both converging into a newer and broader thoroughfare. For purposes of demonstration we will call the left hand fork Commercial Street and the right Technical Street. The point of their meeting is Central Street.

The question is then what happens when the travelers meet upon one common avenue. It is a perfectly natural reaction that

the former Commercialites and Technicalites keep on their own side of the street. The conquests and accomplishments of their former respective institutions were still fresh in their minds.

Soon however this situation changed. Central High School began to acquire accomplishments of her own.

Central gained conquests in football, baseball, hockey, track and basketball; accordingly new heroes came into being, heroes of Central High School.

This brought about the blending of two still distinct factions in support of one common ideal. This support in turn has continued to erase any remaining distinction between former members of Commercial and Technical High Schools so that we now are all loyal members of Central High School.

Old Faithful

By CATHERINE R. HODNETT

WOULD it never stop snowing? Old Dr. Barney sighed as he looked out of the window and saw nature's white blanket covering the ground.

This was just the kind of night he liked if he could sit by the window and look out, but if he had to go out on a call—well, he didn't think so much of the snow then.

As he gazed out into the night he thought what a pretty scene it was—the big moon peeping over the old barn—the trees covered with snow and icicles—the pastures looking like a big cake covered with white icing.

Just as he pulled a chair up to the fireplace, the telephone rang. It would. He had a good mind not to answer it. Yes he must answer it. He had been the village doctor for forty years and he had never yet missed a call.

When he picked up the receiver he heard the voice of Mrs. Silas. The twins were "awfully sick" and she didn't know what to do. No, she couldn't possibly wait until morning, she was sure they wouldn't live until then. It was so good of him to come over, she didn't know how she could ever thank him.

In vain did the housekeeper plead with the doctor not to go out, saying that he had

a terrible cold, his heart was bad, and he must remember that he wasn't as young as he used to be.

The doctor dressed, packed his bag and went as far as the front steps. There he stopped. How was he going to get through three feet of snow to the Silas shack? The horse would never be able to make it. The only thing he could do was walk.

What the doctor went through during the next two hours—fighting blindly through the snow, bumping into trees, and losing his bag—is too much to relate. However, he finally arrived at the Silas shack.

The twins had very bad colds and they were very feverish, but the doctor was peeved at having gone through two hours of agony just to administer home remedies.

The Silases begged him to spend the remainder of the night with them, but because he was afraid others would need him and would not be able to find him if he stayed, he started for home.

Early the next morning men working the snow plows picked up the frozen body of a man. It was that of the doctor.

Heartbroken villagers buried him "on the hill" and on his tombstone were engraved the words "Old Faithful."

TESTS

I think that I shall never see
A test as hard as chemistry.
A test that makes you stir and squirm,
And wonder if you'll pass this term;
A test that makes you tear your hair
And wish you were not sitting there;
A test that turns your hair to snow,
To think of all you do not know.
Tests are flunked by fools like me,
Especially when in chemistry.

Music

By MARJORIE LUCILLE HOPKINS

"AND the cares that infest the day shall fold their tents like the Arabs, and as silently steal away." How perfectly this expresses the power of music! When everything in general looks black, does not a soothing tune played by magic strings lift the coat of despair and lighten the weight on the shoulders? It is a friend, a solace, and a blessing from above.

When I speak of *music* — I refer to the beautiful selections composed by men of genius, who lived in the past ages. Creations of everlasting loveliness written by Schubert, Beethoven, Wagner, Mozart and others will live on to thrill and inspire future generations of true music lovers. The emotions of human beings are perfectly expressed by the various musical combinations.

The human voice is the most beautiful instrument to listen to, if it is controlled and used expertly. The deep, rich tones of the baritone, the thrilling, sweet tones of the tenor, and the high, trilling tones of the soprano cannot be surpassed by any man-made instrument, with perhaps the exception of the violin.

The radio has brought good music to the ears of its listeners. People who have never been in the position to attend performances of opera, have been able to hear the best loved and best known operas presented by the Metropolitan Opera Company. The symphonic and classical music have taken the spotlight of interest. The greatest symphony and concert ensembles have presented performances over the ether waves to astound the steadily increasing radio audience. Radio is, indeed, a magic world of delights and surprises. With the twist of a tiny knob, enchanting music surges forth reaching every corner of the earth. In radio, the music lovers have found their salvation. No longer need they be deprived of the music of the great masters.

I live and sleep *music*. It is the one thing that life offers which I would not lose or sell.

Music can still an aching heart, cheer a lonely soul and inspire the lowest of men. It is a golden treasure that will never tarnish, but brighten through the years.

Reminiscences

By ELEANOR LYON and NANCY BARROWS

Three years of studies,
Three years of play,
Three years of homework
To do every day.

Three years of athletics,
Which brought us much fame,
And held us together
While making our name.

Three years of clubs
In which we had fun,
Three years of budget
By which Central is run.

Three years of eating
The self-same old things,
Meatloaf, potato, and beans
on the string.

Three years of Central Nights
Held at Rhodes hall,
Three years of class days,
And a Victory Ball.

Three years are now over,
And these things are done,
But dear Alma Mater,
Our hearts you have won.

Judgment

By MILDRED K. HIEMER

DUSK was settling over Moscow. A thick, dense fog, accompanying it, produced a rather ghostly effect as Maria Petranovitch trudged wearily homeward. The day had been a hard one, no harder, though, than any other. Indeed, all days were one and alike to Maria. Up before five, feeling no less weary than when she had gone to bed at night; dividing four pitifully small portions of dry bread for her four sleeping boys; carefully pulling her ragged shawl about her care-worn shoulders as she made her way from her peasant cottage outside Moscow to the railroad station in the heart of that great city; kneeling all day long at the back-breaking task of scrubbing floors; then walking the seemingly endless stretch of miles back to the outskirts of the city where, on a narrow side road, lay her excuse for a home; — this was the routine that made her life the drab, colorless, monotonous existence it was.

Now, as Maria was slowly moving homeward, one could have observed that she might have been a handsome woman. However, there was a dullness in her black-lustre eyes, a heaviness in her tread, an indifference about her appearance that stamped her as old-looking and drab, just as was her life. Grey wisps of hair kept escaping and Maria mechanically kept pushing them back under the shawl which she wore over her head. For Maria Petranovitch was thinking, thinking, thinking—about the past. Always, her thoughts reverted back to those days, when there was enough to eat for her children and herself, when she wasn't every minute conscious of that gnawing sensation at her heart, and most of all, when she could steal into the big cathedral to be comforted by the deep-laboring tones of the organ and the droning words of the priest. Then her step

had not been heavy, then her eyes had not been dim. But those days were over now. Now, her heart felt leaden, curiously dead. Now, her only joy was her children. At least they would never forsake her. Her heart warmed a little as she thought of them and her step quickened. Only one more mile — one-half a mile—a few more yards—and she was home. Ah! it felt good to sit down after kneeling on the cold stone slabs all day, scrubbing—always scrubbing. Her three boys — Ivan, Michael and Peter gathered about her, eager to recount to her the events of the day. Only Demetrius seemed a little reticent, a little loath to join the family group. Perhaps Maria was only imagining it. Of course! That was it! She was imagining it. It does seem strange, though — —. But for quite a while now, Demetrius had been cold and reserved with her. She put the thoughts from her quickly. Besides, she was so terribly hungry! Her meager share of dry bread that morning had been divided among her four boys. That meant she had had nothing since yesterday morning. Strange how her thoughts kept turning to that grain in the field across the road. Yet, there would be dire consequences were she even so much as to enter that field, for there was a strict law made by rich government officials forbidding anyone to take grain or obtain food from any source other than that of the governmental supply stores. Maria Petranovitch was a law-abiding (though law-despising) citizen of Russia. And still, — there was that gnawing hunger inside her. With sudden decision, she spoke to her boys, ordering them to bed. They obeyed, as always, and when their deep, peaceful breathing was audible, Maria quietly left the house, and stole softly to that golden, beckoning grain across the road. With nervous hands, she

pulled off as many stalks as she could carry. Now, at last, she would eat until she was completely, wholly, gloriously satisfied. But she must hurry before spying eyes should see her and send her to her Waterloo. She dreaded to think of what would happen were she caught. But everything seemed quiet, and soon Maria Petranovitch had entered the cottage once more and was busy with the grain. Demetrius' cheeks seemed a trifle flushed, she noticed, but she thought perhaps he was too warm. She sighed as she looked at him. Demetrius was a queer boy, but as before, she banished this thought quickly, and went to bed.

Toward the "dusk" of morning, Maria awoke with a start. Someone was knocking loudly and firmly at the door. She glanced wildly about the room and saw — Demetrius

was gone! The knock at the door was insistent. Slowly she slid back the bolt, slowly she opened the door. A policeman in Russian governmental garb stood outside, and with him stood — Demetrius! She gasped in horror. The policeman wasted no words. "For stealing grain, you are sentenced to ten years in Siberia at hard labor," he spoke, in Russian. The words re-echoed over and over in her mind. Who had been spying on her? Who could have hated her enough to betray her? Who? — Who? — Who? — A multitude of questions leaped to her throat. It was then that the accusing eyes of Demetrius met hers. Suddenly the sickening realization came to her. Her son — the son of Maria Petranovitch — was a spy, had betrayed his mother! Something broke within her. Her eyes closed, she sank to the floor.

Being a Senior

By CATHERINE R. HODNETT

MUCH is detracted from the fun of being a senior by the thought that soon our high school days will be over.

For four long years we have all aimed for the one goal—graduation, but now that we are seniors and are about to graduate, I dare say that most of us wish we were freshmen.

We take pride in being called "dignified seniors," but it was more fun to be called "fresh freshies."

According to Webster's definition a senior must be prior in age, dignity, and rank. Age and rank are given to us, but dignity is something we must acquire.

As the undergraduates are usually led by the doings of the seniors, it is up to every senior to set a good example.

Senior days are days of anxiety. It is not until a few weeks before the end of the term that we begin to wonder whether or

not we have enough points to graduate, or whether we are passing every subject. Trips are made to the office to see who is still on the graduating list. Hours are spent trying to find an A to balance every C for the Honor Society. The advisors are haunted by pupils trying to find if they have had the right subjects for a certain college.

Days of agony are spent while waiting for the proofs to come from the photographer's and then days of disappointment, at what is seen. Assembly periods are spent in arguing about what should be worn at graduation and at the Prom. But even with all these troubles, we manage to spend a little time studying, and, in general, behaving as dignified upper classmen should.

And so we depart, never to be high school seniors again, our emotions a hopeless tangle of sadness and happiness.

My Hobby — Collecting Naval Postmarks

By DONALD A. BISHOP

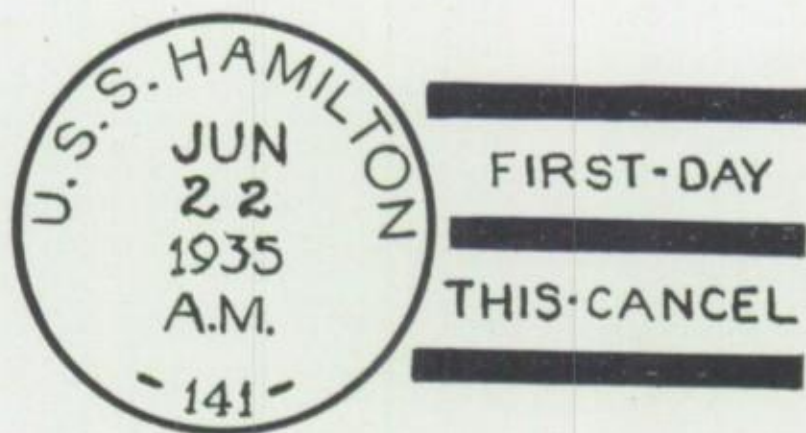

THE Navy besides being the "First Line of Defence" for the United States provides a source for a hobby that is most interesting.

About the year 1910 the Post Office Department established post offices aboard most of the ships of the Navy. This was done to make it easier for the men of the Navy to send and receive their mail. The post offices aboard naval vessels are in charge of mail clerks whose duties are to take charge of all incoming mail and to cancel all outgoing mail. All outgoing mail is cancelled with a rubber stamp which is composed of two main parts, the circle and the killer bars. In the circle is placed the name of the ship, the date, and the ship's number. The killer bars are used to cancel the stamp. Between them is placed wording appropriate for the day. Below is an illustration of a ship's cancel. The wording between the killer bars brings attention to the fact that on this day the cancel was used for the first time.

Not only the ships have cancels but also the Naval Training Stations, Air Bases, Naval Hospitals, etc. These stations have

post offices because it makes it easier for the large number of men at these places to send and receive their mail. The cancellations from these stations are similar to the ones used aboard ships, only the location of the station is placed in the circle in place of the ship's number.

My hobby is the collecting of postmarks from the various ships and stations of the United States Navy, and although this may seem uninteresting to some it is far from such. There are over three hundred ships in the United States Navy having postal facilities and also many land stations having these facilities. This hobby has grown so in the past few years that a nation-wide society has been formed with chapters in all parts of the United States whose members collect Naval cancels for a hobby. Through these chapters many fine friendships are formed, thus making the hobby a worthwhile one. For anyone that wants a hobby that is interesting, worthwhile, and inexpensive I think that he could find none better than collecting Naval postmarks.

The Movie Clean-up

By MILDRED K. HIEMER

JUST recently, much space in our national daily newspapers was devoted to the rabid discussion of the movie clean-up question. Pros and cons waxed furiously. One element was thoroughly in favor of a sweeping clean-up; another was enthusiastically against it. And so they argued. It seems that an increasingly large group of dissenters had decided that America's one hundred and twenty millions had seen just about the limit in "indecent and immoral" pictures. With that view in mind, the members of this group took definite steps toward extinguishing this 1932-35 passion for immoral movies. Everything possible was done to bring this all-important subject before the public eye. The public eye saw. Result? Movie producers set to work with a vengeance. They slashed away at stories and scenes, until even the most critical of critics could find no fault.

In my opinion, their work has been a success. These new "pure" pictures are every bit as entertaining and many times more beneficial to the general morale and education of the country than the old gangster or sex pictures in which one might easily expect a murder or kiss at regular ten-minute intervals. Since this clean-up, a wave of historical pictures has taken the country by storm, and, from box-office reports, they have been very popular. These historical pictures have a beauty all their own. They present the past as a vivid reality, as something one can always remember; whereas simply reading about some long-ago event lacks the color and action, and one soon forgets. Therefore, educators and parents have hailed with enthusiasm this new era in pictures, and I really believe that most students and young people approve, too, in spite of what they may say. The movie clean-up has done that for the public.

"The Good Old Summer Time"

By HARRY V. McKENNA

LAST evening as I pondered on the best method of wooing the Muse, my fanciful dreams wafted me to the land of sunshine and flowers. Perhaps it was the gentle spring breeze that launched me on an imaginary flight to the secret recesses of nature where the Muse smiled kindly and gave me the answer to, "What shall I write that will interest all?"

Spring brings new courage because all nature is articulating with beauty just created. There is the flute of the thrush; there are pools where birds come at twilight to bathe; there are woods where soon early violets will hide in the moss,—woods where the busy world is hushed and work and worry is forgotten, where conjugations and declensions, subtle mysteries of angles and lines and planes are absorbed by the wonders of Mother Earth.

Almost unconsciously, my fellow students, I have been studying you these past few weeks; this boy with an unusually preoccupied air, that one improvising schemes, another hustling along with exuberant buoyancy, and still another filled with gladness that graduation is so near even though tinged with sadness at thoughts of separations to come. Some seem to be building glorious castles and filled with hopes that there will be no wreckage.

Let's get away from all this, at least, in fancy. The great open spaces are calling us, for just around the corner is "the good old summer time" with all its allurements. For

some, life at the seashore, swimming or basking on the beach; for others the coolness of the mountains where fishing in some wood-shaded lake, or climbing to a summit to enjoy a gorgeous sunset, will afford an outlet of deep satisfaction. For others, there will be the problem of finding something to do, and work is not easily obtained these days. Someone has called ours "the lost generation." We do not believe it, do we? We accept the challenge to meet obstacles as incentives. We will be "still up and doing, with a heart for *any* fate, still achieving, still pursuing, learning to labor and to *wait*."

Whatever way our paths may lead, let's be optimistic and believe that the "good old summer time" is the best season of all and is going to be especially so *this* year. May its end find us redolent with memories of woodland trails, clear and sparkling waters, beautiful views of changing colored skies, pine clad hills, sloping beaches, invigorating sports, hours of abundant sunlight and last but not least, some worth while achievement, for above the physical and material side of things will come a rich experience, mentally and spiritually. All these memories of the "good old summer time" will be ours to cherish and to broaden our horizons.

"Build today then strong and sure
With a firm and ample base
And ascending and secure
Shall *to-morrow* find its place."

Traditions

By HILDIA C. GREENBERG

TRADITIONS have always held an important place in school life.

We must go back many years to the origin of awarding "sheepskins" to graduates from schools of learning. After many years, this ceremony became a custom, until now, it is

one of the oldest traditions to be observed in educational circles.

Another tradition in most high schools, observed to a large extent, is the publishing of a graduation edition of a school's magazine. This edition usually contains the pic-

tures of all the graduates with interesting items and oddities concerning them. In connection with this so-called "year-book," we find another tradition stepping in—when we find the senior autographing his picture in his friends' magazines.

Tradition it is that gives us our Prom. This custom of holding a formal dance has come about through one of the best-loved traditions of the present day.

Why do we at Central have class days? Why do we elect class officers? These

"whys" and many other "whys" can be answered with merely one word—tradition.

Without carrying out the many age-old traditions observed in high schools, we Centralites would have missed the best morsels of school life that were offered to us. Without them, can you imagine what our high school days would have been? If you think over this question, I think you, too, will want to say as I do now, "Ah, but we owe much to good old traditions!"

Modern Education

By JOHN MORAN

TO-DAY there are many citizens who differentiate from the paramount principles of modern education, inasmuch as they are opposed to the increasing amount of vocational subjects. Many think that this type of education is a failure, as many of its varified subjects may be interesting to young people, yet of little value in later years. This viewpoint is undoubtedly true in certain aspects, but its principles can be supported by direct appliances.

The ancient Greeks, whom many historians rate as the most intelligent race ever created, had a very different method than the modern school. The complicated mass of to-day's scientific and industrial fields was unknown, therefore the Greeks did not need a wide scope. They applied themselves to the drama, mathematics, and sculpture, while much of their time was allotted to physical sports. They specialized at all the various branches of the subjects, forming a foundation for their daily work. This would not be appropriate in the modern world, but it formed the habit of thinking—the true goal of schooling.

The modern school system in Italy is in direct contrast with that of the United States. The government has a national department of education, and have almost the same subjects throughout the country. The American system counteracts that policy

with its wide variety of curricula. About half of the population in the United States depend upon agriculture for their livelihood in full or in part, while the remaining half are centered in the industrial cities. Farming, poultry-raising, and kindred subjects are taught in many rural districts in the East, and on a large scale in the Middle West and Far West. Commercial subjects, practical use of machinery, printing, and many other technical subjects are taught in large cities, so as to allow the individual to specialize in some subject appropriate to his region.

There is another aspect that the modern psychologist has pointed out. Latin and Greek were once thought to be of immense value in forming the habit of remembering and thinking. Many students major in mathematics, while others find little interest in that line. This is true in all other major subjects: there are many individuals who are rated low in history, for example, yet are high students in chemistry, or vice versa. The classical languages and the compulsory sciences of the past are being taught to those individuals who center their interest in those fields, while the modern languages and sciences, together with the varified vocational subjects, are now forming the modern trend in education.

I Hate Mosquitoes

By CHARLES INGERSON

MOSQUITOES are the scourge of the camper's life. They buzz around your head and into your ears. Especially when your hands are full and you cannot strike back, one always seems to take delight in alighting on your nose and leaving his fiendish bite.

When I go camping, I go armed with several bottles of citronella, the one protection against our hated playmates.

When I cover my head though, and bury myself beneath the blankets to escape the tortures of that tormenting horde, a few always seem to find their way under with me and usually, at least one of them succeeds in stinging me, and usually the sting is on my newly acquired sunburn or else it is on some spot that I could not reach even if I were a contortionist, which I assure everybody I am not.

These little tricks of my tiny winged enemies add to my torture until it seems as if I cannot stand another minute of it.

But by this time, my tent-mate, who in

the meantime has been fighting his own private battles, comes to my rescue and throws the bottle of citronella to me. I then proceed to saturate myself with the oil until I begin to smell like a drugstore. By this time, the mosquitoes decide to go elsewhere where they will get a more hospitable welcome.

Ah! Now I can get some sleep, I think to myself. Sweet ignorance is bliss. After a few hours, when the scent of the citronella has disappeared, a new horde of insects discovers the open crack between the tent flaps, and the fierce battle begins anew.

First one lights on my forehead to reconnoiter and when I try to swat him, I am so angry that I do not take time to aim and consequently hit myself on the nose.

And so, far, far into the night the deadly combat of man versus mosquito continues until the first tinges of a cold, gray dawn begin to show over the horizon and the last mosquito is driven away by the gentle breeze that blows in from the bay. Ah! at last I can sleep in peace.

Farewell, Central

By MARJORIE LUCILLE HOPKINS

WE graduates, who reluctantly leave these four walls of learning, do so with gratitude for every kindness received from school officers and teachers. Co-operation has been the watchword of the faculty and the student body. Not at any time has school work been overbearingly monotonous; many social activities have relieved the tension of too much study. Each student has had an opportunity to join some sort of club and excel in whatever art he possesses the most interest in. Perhaps such things do not have to be cited, as Central High School holds many trophies and honors from sports, etc., won by the students who took advantage of their opportunities.

Outsiders do not realize how perfectly

we have co-operated. Two distinctive schools, Technical and Commercial, were literally "thrown" together. At first, there was an underlying sense of aggravation among the students; then social activities brought them closer together and complete understanding governed all. Since then we have carried on under the banner of Central High and we are proud of our accomplishments, but more so of the co-operation among the students.

And so we leave all this in June, 1935, to go forward into the business world with a sincere desire to do our best; thus bringing more honor to Central High School, which we hope will continue to prosper.

Central High Debating Society

By MICHAEL HAKEEM

THE Central Debating Society has just completed a busy semester. Throughout the year the society has concentrated its attention and efforts especially in arousing a greater interest and enthusiasm in general forensic activities in and out of the school.

The debating teams have debated the following schools this term: B. M. C. Durfee High, Cranston High, La Salle Academy, E. Providence High, Brockton High, and Central Falls High. All students and teachers who had English the third period in the afternoon, on March 15, were invited through the kindness of Dr. Walsh, to witness the E. Prov.-Central debate. There were about three hundred in the assembly.

The questions for debate this term are: Resolved: That the sales and manufacture

of munitions should be made a government monopoly, and resolved: That the several states should adopt legislation for the socialization of medicine.

The affirmative team was Virginia Trimble, Mary Emerson and Teresa St. Onge, alternate. The members of the negative team were Theodore E. Tetreault, Michael Hakeem and Leonard Chase, alternate.

The members of the Society have also enjoyed varied and interesting weekly programs held at the weekly meetings in Room 218A every Wednesday at one o'clock.

Under the able direction of Mr. T. Russell McGrath, debating coach, the Society has progressed very satisfactorily.

French Club — Le Cercle Jeanne d'Arc

LE CERCLE JEANNE D'ARC has met twice a month on Tuesdays during this past term under the supervision of Miss Helen Cooper. At one meeting Mr. Guertin gave a very interesting talk in French on "A Walk Through Paris." At other meetings the members have given French anecdotes, proverbs, facts about famous people

and places. The members have also played games in French and learned French songs.

The officers are: President, Theresa Borigine; Vice-President, Eleanor Elstad; Secretary, Ruth Boyle; Program Committee, Carolyn Roberto; Publicity, Virginia Warren.

Circolo Petrarca

MORE than sixty-five students belong to the Circolo Petrarca of Central High School. The officers of this club are: Ferdinand Gabriele, President; Joseph Di Libero, Vice-President; Raymond De Mattio, Treasurer; Jennie Capozzoli, Secretary. This club meets the third Thursday of every month in room 208. Business, songs, recita-

tions, and formal programs are all conducted in Italian. "Non Amarmi Così," a three-act comedy, was presented entirely in Italian on May 17th. The play was directed by Miss Carol B. Bogman. It was a great success with a large audience. We feel that the Circolo Petrarca furthers the interest of the Italian language and culture.

Sports Page Club

THE Central High School Sports Page Club continued its policy of bringing sport celebrities to the students of Central as guest speakers.

The climax of the past term's activities was the acquisition of William Tilden, America's foremost tennis player and veteran of many Davis Cup triumphs. Mr. Tilden, known to the world of sports as "Big Bill Tilden," presented a floor talk to an appreciative audience of approximately five hundred students. Mr. Tilden was introduced by the club president, George Larkowich and an informal discussion concerning the past, present, and future of American tennis followed.

Negotiations were carried on with George "Babe" Ruth, but the mighty man of baseball was unable to appear due to the conflicting schedules.

Baseball was well represented however by the film "Play Ball" which is sponsored by a Michigan automobile company and gives intimate glimpses of the major League clubs and players in action.

The Sports Page Club will continue its activities next term under the direction of Mr. Paul Gleeson. This club is sponsored for the benefit of athletically minded students of Central and should prove worthwhile to those so inclined.

CENTRAL DRAMATIC CLUB

First Row, left to right: Albert H. Wilcox, Livia Del Vecchio, Emerson Randall, Nancy Barrows, Mr. Di Iorio, Faculty Director; Miss Kelman, Faculty Director; Donald Bishop, Charles Ingerson, Emily Miller, Charles Lacallade.

Science Club

THE Central Science Club was formed about a year ago by a small group of students interested in science and its furtherance. Since that time the club has been increasing in size until now it has a membership of over thirty-five students.

Last winter the club visited the Coca-Cola Bottling Company. At one meeting, Professor Rakestraw of Brown University gave an illustrated lecture about the "Chemistry of the Sea." The club was also addressed by Professor Altman of the R. I. College of Pharmacy who brought many drugs and chemicals with him for demonstration.

The purpose of the club is to interest as many students as possible in science and also to further their knowledge in science. The students perform experiments in chemistry, physics, biology, and other branches of science. The experiments are done under the direction of Miss Kelman and Mr. Di Iorio, the faculty advisors of the club.

The present officers of the club are: Charles Ingerson, President; Donald Bishop, Vice-President; Emerson Randall, Secretary; and Ira Rodinsky, Treasurer.

"The Centralite" Passes in Review

By HARRY V. McKENNA, '35

WELL, my friends, summer is almost upon us and we all feel once more the urge of canny Mother Nature and her call to the open road. As the BLACK AND GOLD reviews our school year at Central, lets take an intimate glimpse on the people who are responsible for "The Centralite's" existence. The three most influential in *The Centralite's* welfare were Dr. T. Franklin Walsh, Miss Helen M.-E. McCarthy, and Mr. Edward C. Brown. Dr. Walsh, our revered principal, made it possible that Central High School should have a paper published by the students, that would prove itself worthy of representing the school. Mr. Brown has assisted "The Centralite" on many occasions, incidentally he is the one we should thank for producing such a fine year book as THE BLACK AND GOLD. Miss McCarthy has toiled long and hard to justify the faith Dr. Walsh placed in her when he put her in charge of *The Centralite*. Now I turn to my staff and try to give you a thumbnail description of each one. Heading the list is Paul Anjoorian, our managing editor. In the fall Paul intends to further an already brilliant journalistic career at Columbia. Next in line is Tom Conway, our advertising manager and his able assistant, Mary Smith, when "ads" were needed Tom could always be depended upon to procure them. Tom is headed for a great future in the field of advertising. Director of publicity and circulation, rather a sumptuous title isn't it? The owner of it is genial "Gene" Buonoccorsi; he possesses a keen and alert business mind and also an everlasting smile that makes him liked by everyone who comes in contact with him. He was assisted by Zelma Silverstone and Joseph Madden. Capable Mary of the Ruginsky family who handled expertly the

secretarial end of that department. Harry Keller, our live wire news editor is next on the list. Harry kept the members of the staff and his reporters right on their toes by covering the assignments he gave them. When it comes to music, Robert MacNaught is right on hand with his sharps and flats; he covered his department well. Central's clubs were reported by Josephine Dwyer and James Kennedy. Our feature and literary editor was John Moran; John is a brilliant conversationalist and an equally so writer, he intends to go to Columbia also. John, success is there waiting for you; all you have to do is go and claim it. James McCloskey, Helen Carroll, and Morris Ollove headed the sports department. We come now to that "man-about-Central"; everyone know him and he knows everyone. Louis Pells needs no introduction, he headed the humor department and was aided by William Spaniel and Simon Fain, Irene Stergios proved herself worthy of her position as exchange editor. Mary Cavaliere and Mary Stevens and our general secretary and statistician respectively, did more than their share in filling their offices. Our director of budget publicity was Norman Carignan. Included in our girl's feature department was: Barbara Beachen, Miriam Quann, Mary Bulaski, Charlotte Gold, Marie Delaney, and Charlotte Travis. Vincent Brown headed our sports reporters who included: Charles Cavas, Barney Cramer, Abraham Malachowsky, Arthur Goldstein, Joseph Reilly, Kenneth Aust, and John DeStefano. Winding up our staff is George Larkowich who covered his assignment as alumni editor as well as he did when he was captain of that championship football team of ours last fall. George in the fall may go to Brown. If the Brunonians are wise they will see that

he attends there for in George there is a host of material if properly developed both as a scholar and an athlete.

I now take this opportunity to express in a most humble manner my sincere thanks to the people who have helped me in making *The Centralite* the success it is. To you, my staff—May the best of luck attend each one of you in years to come.

To future staffs—we hand down to you *The Centralite*; carry on where we left off. My hand falters and my eyes grow moist. I have written my last article for Central, memories of Central will always remain dear to me. *Au revoir*, Central, and to the faculty and student body I wish you all a very pleasant summer.

Basketball

By MORRIS OLLOVE

COACHED by the able "Ken" Clarke, the Central basketball team enjoyed a successful season even though it did not gain a berth in the final play-offs. The team, captained by "Red" Sullivan, suffered the loss of Larkowich and Tyzbir after the fifth game. Up to that time the boys surely

seemed on the road to championship honors. The Black and Gold aggregation won seven games and was defeated the same number of times. "Tom" Bombas led the team in scoring with a total of 60 points. Following Bombas were Sullivan, Larkowich and Dobozinski.

Hockey

By JOSEPH DIAMOND

THIS year was the first in three years that a team representing Central High School in the R. I. Interscholastic Hockey League failed to be listed among the play-off contenders. Central, hampered by the fact that only two veterans returned to its fold, finished in sixth place, one point short of a coveted play-off berth.

Pre-season predictions were fulfilled with the Flying Frenchmen of Mt. St. Charles romping undefeated to their third consecutive State Championship.

The Central sextet compiled a record of 3 victories, 5 tie games, 6 defeats in league play, and 1 defeat in post-season play.

City Champions — Cageball

By LAURA HALKO

CENTRAL'S Cageball Team, composed entirely of Seniors, is now the champions for their second consecutive year. These girls have come faithfully to each practice and their only aim was to win, and win they did. Central's first game was with Classical, and they defeated Classical with the score of 28 to 4. Next in line was Hope and with the same result Central now having beaten Hope by the score of 39 to 17. Then they played the two teams in school, which were the Juniors and the Sophomores which put Central on top. Central hasn't lost a game since the season began, and at the close of the season Central Seniors were the City Champions, due to the able coaching of Miss Ziesenitz.

All these games were enjoyed by the

players immensely. They played even though their fingers were numb or sprained. One of our players was gifted with a good right, and the ball always seemed to go over the net with a bang. In the end the girls were rewarded for their fine work. Those taking part in all the games were: Marguerite Davenport, Naomi Jennings, captain; Nancy Croce, Francis Lindbloom, Jean Mosher, Betty Barden, Helen Carroll, Laura Halko, Lena Banani, Francis Deacutis, Josephine Famigletti, Adele Chrostowski, Angelina Gunaris, Genevieve Bart, Amy Dreyer, Pauline Dufresne, Velma Hassell, Nan Holt, Herta Keppler, Cecelia Lake, Carolyn Parnas, Barbara Ruff, Rose Russo, Mildred Stewart, Anna Young, Margaret DeChristofaro.

The following girls have received certificates for basketball: First Team—Helen Pappas, cap-

tain; Marjorie Goldson, Eva DiPalma, Josephine Cardozzi, Evelyn Haxton, Teresa Carrara, Elfreda Fassnecht, Eleanor Hunter, Alice Jewell, Edna Whalen; Second Team—Lois Johnson, Mary Errico, Catherine Stappas, Rose Petrillo, Audrey Hopkins, Inez Booth, Viola Dorsey, Etta Ruscito, Lillian Riter, Phyllis Oxley, Freda Leonhardt, Elizabeth Carmusco, and Agnes DesGranges. Miss Marion Readio was Coach.

The Wrestling Team of 1935

THE wrestling coach, Albert Beachen, sent out his call for candidates for wrestling about a week before Christmas. It was well received as 85 signed up at the first meeting. The first week was spent registering and checking Home Rooms. At the practices Mr. Beachen showed the boys a few grips at a time until the boys could work these grips automatically.

During the training season the boys worked hard and earnestly. Then came eliminations. At eliminations, Philip Giorgio came out first in the 110 lb. class, Gerald Baker in the 118 lb. class, Carlton Baker in the 126 lb. class, Henry Testa in the 135 lb. class, Capt. Nick Paglia in the 145 lb. class, John Cerra in the 155 lb. class, Alfred Costantino in the 165 lb. class, Frank Delmonico in the 175 lb. class. On the second team there were Philip Giorgio in the 110 lb. class, Thomas McKenna in the 118 lb. class, Angelo Quaranto in the 126 lb. class, Americo Damiano in the 135 lb. class, Fred

Dalida in the 145 lb. class, John Miller in the 155 lb. class, Alfred Costantino in the 165 lb. class, Edward Purcell in the 175 lb. class. The third team consisted of Joe Quaranto in the 118 lb. class, Americo Raffonilli in the 126 lb. class, Edward Ferra in the 135 lb. class. Some of the other fellows who tried hard to get a place on the team were Orlando Costantino in the 118 lb. class, Gregory Judge in the 126 lb. class, Victor Di Orio in the 135 lb. class, William Irace in the 155 lb. class.

Central's matmen did fine work in the State meet even though there weren't any championships won by them. The prospects for next year don't look so good as quite a few of the boys will graduate before next season. Some of the boys who will be here next season making good are: Capt. Gerald Baker, Carlton Baker, Henry Testa, Frank Delmonico and Nick Paglia as manager.

STATE Championship? This accomplishment was practically nothing for the Golden Wave, for they won every meet they entered and became looked upon as one of the foremost schoolboy teams in the country. Undoubtedly much of the credit is due to mentor "Joe" Watmough, who coached Higgins and Chrostowski to the titles they now possess. Practically every time the boys took to the water another record was established. Mathew Chrostowski and John Higgins, Central's two boy wonders, were fortunate enough to smash all records in the freestyle and breaststroke events. At the Harvard Interscholastics, in which the Golden Wave finished

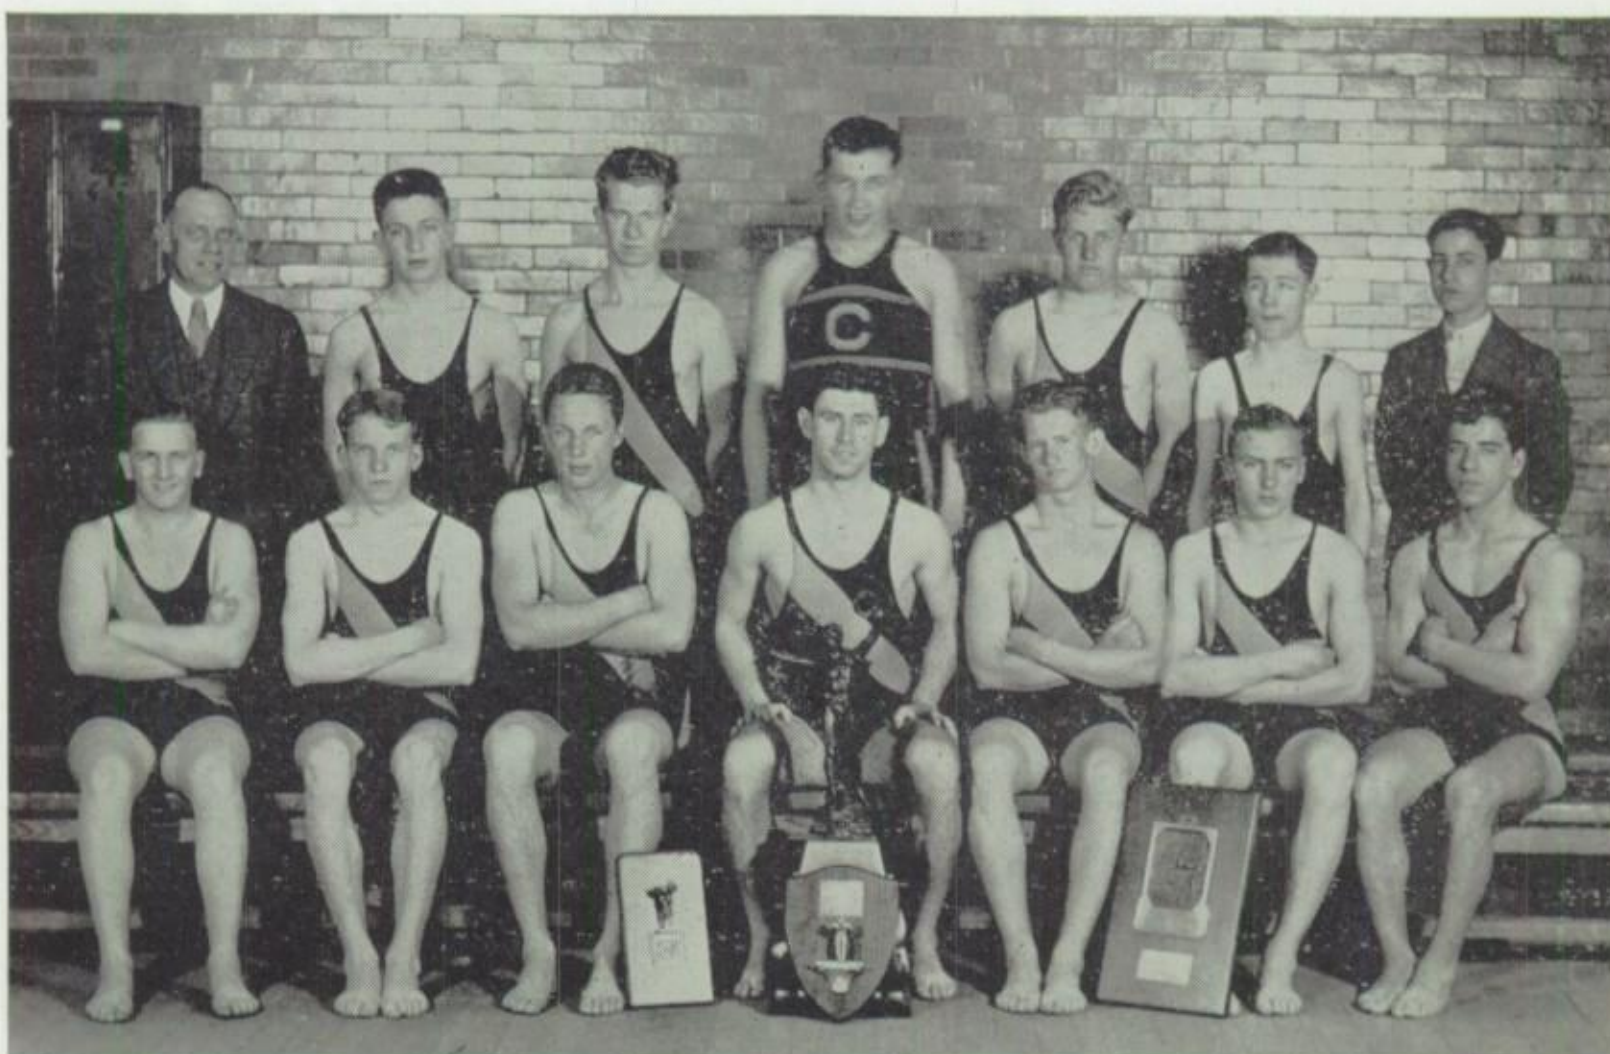

on top, the team of Chrostowski, Higgins and Soltysiak broke the 300-yard medley relay record formerly held by Mercersburg High School of Virginia. Competing against the finest swimmers in the country, at the Yale Individual Interscholastic championships, Chrostowski won the 50 and 100 yard freestyle races, breaking the world's Interscholastic mark in both events. "Johnny" established a new American and World Interscholastic record in the 100 yard breaststroke. Although "Matt" and John were the big guns, the 16-year old Mathew Soltysiak was a leading point scorer. Krompatas and Bik were also big assets to the New England Champions.

Senior and Junior Basketball Teams

By LAURA HALKO, '35

ALTHOUGH the Senior basketball team did not win their class championship in basketball, they certainly played some of the finest games ever seen at Central. Central Seniors were defeated by the Classical Seniors both on their home and return games. Let us look at the victories of the seniors which was over Hope Seniors. Those who need mentioning are Helen Carroll, captain; Marguerite Davenport, Nancy Croce and Naomi Jennings. These girls

have been on the basketball teams for the past three years at Central. Miss Ziesenitz was the Coach of the Seniors.

The Juniors on the other hand have beaten all their opponents except their final game with Classical Seniors. Good playing was shown by Marie Samuelson, Elsie Barks, and Eva Quist. The coach for the Juniors was Miss Colitz. The Juniors have won their class championship.
